Eliminate chaos on the shelf ...

... and create order!

✓ optically uniform product arrangement

✓ structuring according to product groups -
so that the customer can orientate themself better

✓ adherence to the specified shelf space for
individual products

✓ better overview - especially for products with a varied
assortment depth (e.g. cosmetics and beauty)

✓ assignment of the right prices to the right product -
no misalignment within the shelf levels

✓ easy combination with a scanner rail incl. shelf divider
holder (PEK) at the shelf front

✓ easy combination with shelf stoppers for visualisation
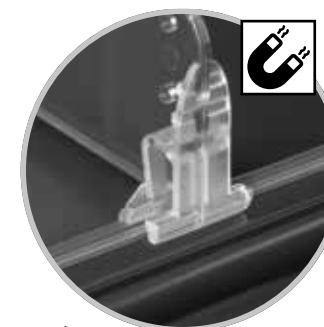

✓ better order with e.g. conical packages
