## SUSTAINABILITY

Discussions around sustainability have caused uncertainty, but also a change in mindset. As we also work with plastics, we have considered how we can react. We have already been researching alternative materials for some time.

Even as long ago as 2011, we were the first manufacturer to introduce a shelf edge profile made from PLA. In Austria we have been manufacturing for over 6 years with a range of products made from natural material based plastics under the name of Bio-Logic.

Even when enquiries were few, we remained on the case and continued to develop the range. To give you a better overview of our capabilities, we have started to label the relevant products:

## RENZEL NATURE

Products with this symbol are made predominantly from natural, renewable raw materials. Eventually raw materials will be replaced in this way. Alongside the classic materials such as wood or paper, we are continually looking for new materials.

"Mumbai"  
Fruit & Veg Bag 46.0538.1

Gastronomy  
Pavement Sign 12.0496.

Tent Display  
in Card 12.0340.

## RECYCLED MATERIAL

Products with this symbol are made of plastics or other materials that have been recycled. VKF Renzel regularly checks in which fields recycled materials can be used. In this way resources can be conserved and material life cycles closed.

Shelf Edge Profile "TE 39" from  
Recycled Material 20.2408.

Shopping Baskets in Recyc-  
led Material 68.0173.

Push Button Ballpoint Pen  
"Recycled PET" 40.1422.

## NATURAL DISPLAY

Products with this symbol help by reducing the amount of packaging in retail. Waste is avoided without compromising on the attractiveness of the display. It also allows the customer to purchase just the quantity required.

Basket with  
Front Access 40.0005.

Transparent  
Food Dispenser 65.0189.

Product Display  
"Jungle" 59.2858.
