Versatile Fruit & Vegetable Shelving

Our fruit and vegetable shelving is a combination of non-sensitive ABS surfaces and a strong metal frame. The simple fruit and vegetable table has many advantages. The table is fitted with 4 castors, 2 with brakes, to provide stability. It can be quickly repositioned. In addition the underneath has either a hinged front or a removable drawer which offers a practical storage space. To provide your customers with a good overview and to make the products easily reachable the table also has an adjustable tilting function. Using this fruit and vegetables can be positioned at an angle. Our fruit and vegetable shelving with 2 levels offers a larger display area so your range of fruit and vegetables is unlimited. The basic unit offers a great base to add your selection of accessories.
